---------------------	--	---

The meeting started with Mr. Makrides explaining how to complete the reporting forms for the travelling of C1 and TPM.

The following discussions/decisions took place:

- Partners will upload their interviews and video testimonials on the GD of the project.
- Mr. Makrides mentioned that the interview questions are not required to be included in the testimonials. People can be free to talk about what they want in the testimonial.
- The duration of the testimonial is decided to be 30-60 seconds.

- 14 people have to be interviewed (2 interviews and 2 testimonials per category per partner. Women need to consist 50% of our sample population.)

The categories are coded as below:

- TG1. Employer,
- TG2. Non-Teacher Employee,
- TG3. Teacher/Professor Employee,
- TG4. Parents,
- TG5. Grandparents/Older People,
- TG6. Students (university),
- TG7. Pupils (school students)

Coding of testimonials and text is to be as follows:

Country-TG-NAME-Language-Partners

Example of video coding:

CY-TG2-Giorgos-VASILIOU-GR-P0

Text file

TEXT-CY-TG2-Giorgos-VASILIOU-GR-PO (Greek text and English text)

GD will have

Folder: TESTIMONIALS

Subfolder: P0,P1,P2,P3,P4,P5,P6

Folder Partner will have folders

Video1, Video2, Video3.....Video7

- Some results of the survey, or from interviews will be turned into INFOGRAPHICS to appear in the project video (pitch video)
- From the interview transcription partners have to derive the themes.
- It was highlighted that we need to have social inclusion on the participants of the interviews and testimonials (partners should try to include people with social needs as they may have had different difficulties during the pandemic that we had not thought of)
- After presenting the action plan of the D6: eBook, the title of the book was decided as: **How European were coping with no mobility during Covid-19 times**
- Angela from the ADA organisation (as co-leaders of dissemination) presented the EPAL platform and asked the partners to also register to the CONOCO project into the EPAL platform
